

SACHIN SINGH

Full-Stack Developer | Backend Developer | Software Engineer

📞 +91 6392635656 | ✉️ singhsachin0517@gmail.com | [🌐 LinkedIn](#) | [📁 Portfolio](#) | [🐙 GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack and Backend Developer with hands-on experience building scalable, production-ready web applications using **Node.js**, **Express.js**, **React.js**, and **MongoDB**. Proficient in designing **RESTful APIs**, implementing **JWT Authentication**, and integrating real-time features with **Socket.io**. Strong foundation in **Data Structures & Algorithms** (500+ LeetCode problems), **OOPs**, and **Software Engineering** principles. Passionate about clean, maintainable code and delivering performant user experiences across the full technology stack.

TECHNICAL SKILLS

- **Languages:** C, C++, JavaScript (ES6+), HTML5, CSS3
- **Backend:** Node.js, Express.js, REST APIs, Socket.io, Nodemailer, JWT, Session Management
- **Frontend:** React.js, Redux Toolkit, Tailwind CSS, Bootstrap, EJS
- **Databases:** MongoDB, Mongoose ODM
- **Cloud & DevOps:** AWS EC2, Cloudflare, Git, GitHub, VS Code
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), MVC Architecture, Role-Based Access Control (RBAC), Software Engineering Principles, Agile Development
- **Other:** Firebase Auth, TMDB API, Gemini API (Google AI), Competitive Programming

PROJECTS

- **ByteFlame — Full-Stack Dating Application** [🐙 GitHub](#)
React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Socket.io, JWT
 - Architected a production-ready, full-stack dating application with **JWT-based Authentication**, **secure REST APIs**, and **real-time bidirectional chat** via **Socket.io**, supporting concurrent users.
 - Built a modular, scalable **Node.js/Express.js** backend with clean **MVC architecture**, middleware pipelines, and **MongoDB/Mongoose** for efficient data modelling.
 - Developed a fully responsive **React.js** frontend with **Redux Toolkit** for optimized global state management, reducing unnecessary re-renders.
 - Engineered core features including **user-matching algorithms**, dynamic user feeds, connection request workflows, and media-rich profile management.
 - Frontend: [🐙 GitHub Link](#) — Backend: [🐙 GitHub Link](#)
- **Netflix-GPT — AI-Powered Movie Discovery Platform** [🐙 GitHub](#)
React.js, Redux Toolkit, Tailwind CSS, Firebase Auth, TMDB API, Gemini API (Google AI)
 - Built a **production-grade, Netflix-inspired** movie discovery platform with a fully responsive UI using **React.js** and **Tailwind CSS** with reusable component architecture.
 - Integrated **TMDB API** for real-time movie data with **Redux Toolkit** caching strategy, significantly reducing redundant API calls and improving performance.
 - Implemented secure **Firebase Authentication** with email/password login, session persistence, and protected routes for a seamless user experience.
 - Developed an **AI-powered movie recommendation engine** using the **Gemini API**, generating personalized suggestions based on natural-language user input.
 - Optimized UX with global search, **dynamic auto-suggestions**, debouncing, and lazy-loaded components for faster page rendering.
- **Job Portal — Full-Stack Web Application** [🐙 GitHub](#)
Node.js, Express.js, MongoDB, EJS, Nodemailer, HTML5, CSS3
 - Developed a full-stack job portal enabling **multi-role access** (Employer & Candidate) with seamless job posting, browsing, and application workflows.
 - Implemented **Role-Based Access Control (RBAC)** with secure authentication, session-based authorization, and route protection middleware.
 - Integrated **Nodemailer** to trigger automated **transactional email notifications** on job applications, status updates, and account events.
 - Designed **RESTful APIs** with a clean MVC folder structure for high modularity, scalability, and ease of maintenance.
 - Delivered a fully responsive frontend using **CSS3** with **server-side rendering (SSR)** via **EJS** templating engine.

EDUCATION

GL Bajaj Institute of Technology and Management	Aug 2021 – May 2025
B.Tech in Computer Science Engineering — CGPA: 7.22	Greater Noida, UP
Raj English School	Apr 2019 – Mar 2020
Intermediate (Class XII) — 71.4%	Varanasi, UP
Maa Vaishno Modern Public School	Apr 2017 – Mar 2018
Matriculation (Class X) — 78.2%	Robertsganj, UP

ACHIEVEMENTS & CERTIFICATIONS

- Solved **500+ problems on LeetCode** including **300+ Medium** difficulty challenges, demonstrating strong proficiency in **C++**, algorithms, and optimized data structure design.
- Awarded professional certifications in **C++**, **Data Structures & Algorithms (DSA)**, and **Frontend Web Development** from **Coding Ninjas**, validating core software engineering expertise.

CODING PROFILES

[🔗 LeetCode](#) (500+ Problems Solved) | [🏆 Coding Ninjas](#) (Certified Profile) | [🐙 GitHub](#) (Open-Source Repositories)

SOFT SKILLS

- **Problem Solving** — **Team Collaboration** — **Time Management** — **Technical Communication** — **Adaptability** — **Attention to Detail**
